

U.S. AIR FORCE

Military Working Dog (MWD) Kennel

- Relocation of the MWD Kennel may be necessary due to incompatible noise levels from operations at the new PAR Complex.
- If the HCP Southwest Option were selected, the existing MWD Kennel would need to be moved as it would be sited within explosives safety stand-off distances of the HCP.

- **Vermont Road:** the MWD Kennel would be located in the vicinity of the intersection of Vermont Road and Utica Street on the southeast corner of JBA, approximately 100 yards south of the existing golf course driving range.

- **Tyler Road:** places the MWD in the northeast corner of JBA in a former residential area bordered on the north and east sides by the JBA perimeter fence, on the west side by Patrick Avenue and on the south by a creek and woodland area.
