

U.S. AIR FORCE

The PAR Program

PURPOSE

Maintain the Air Force's ability to provide safe, secure worldwide transport for the President, Heads of State, and senior officials

Replace the aging VC-25A aircraft that currently serve as Air Force One with the Boeing 747-8

NEED

VC-25A aircraft are aging and becoming more difficult to maintain

Maintain operational capability

Provide infrastructure and mission support at JBA for the continuing Presidential Airlift Mission

COMPONENTS

Construct an adequately-sized Presidential Complex with a multi-bay hangar, to support operations with new aircraft

Relocate JBA facilities to accommodate construction: (1) the Hazardous Cargo Pad(HCP) / Explosive Ordnance Disposal (EOD) Proficiency Range, (2) the Joint Air Defense Operations Center (JADOC) Satellite Site, and (3) the Military Working Dog (MWD) Kennel
